IMPORTANT INFORMATION

Investors should not base investment decisions on this document alone. Please refer to the Prospectus for details including the product features and the risk factors. Investment involves risks. There is no guarantee of the repayment of principal. Investors should note:

- Global X China Cloud Computing ETF's (the "Fund's") investment in equity securities is subject to general market risks, whose value may fluctuate due to various factors, such as changes in investment sentiment, political and economic conditions and issuer specific factors.
- Companies in the internet sector may face unpredictable changes in growth rates and competition for the services of qualified personnel. The products and services offered by internet companies generally incorporate complex software, which may contain errors, bugs or vulnerabilities.
- China is an emerging market. The Fund invests in Chinese companies which may involve increased risks and special considerations not typically associated with investment in more developed markets, such as liquidity risk, currency risks, political risk, legal and taxation risks, and the likelihood of a high degree of volatility.
- The trading price of the Fund's unit (the "Unit") on the Stock Exchange of Hong Kong is driven by market factors such as demand and supply of the Unit. Therefore, the Units may trade at a substantial premium or discount to the Fund's net asset value.

INVESTMENT OBJECTIVES

The Fund is a passive ETF and seeks to provide investment results that, before deduction of fees and expenses, closely correspond to the performance of the Solactive China Cloud Computing Index NTR (the "Index").
