Category: Core  
As of 27/02/2026

### IMPORTANT INFORMATION

Investors should not base investment decisions on this document alone. Please refer to the Prospectus for details including the product features and the risk factors. Investment involves risks. There is no guarantee of the repayment of principal. Investors should note:

- Global X MSCI China ETF's (the "Fund's") investment in equity securities is subject to general market risks, whose value may fluctuate due to various factors, such as changes in investment sentiment, political and economic conditions and issuer specific factors.
- The Fund has a portfolio investing in companies whose operations are primarily in the People's Republic of China (PRC) and therefore is subject to emerging market risks such as risks associated with uncertainty concerning PRC laws and regulations and government policies. Generally, investment in emerging markets such as the PRC are subject to greater risks than developed markets due to greater political, economic and taxation uncertainty and risks linked to volatility, market liquidity, foreign exchange, legal and regulatory risks.
- The Fund is subject to concentration risk as a result of tracking the performance of a single geographical region i.e. the PRC. The value of the Fund may be more volatile than that of a fund having a more diverse portfolio of investment.
- The trading price of the Fund's unit (the "Unit") on the Stock Exchange of Hong Kong is driven by market factors such as demand and supply of the Unit. Therefore, the Units may trade at a substantial premium or discount to the Fund's net asset value.
- As part of the securities lending transactions, there is a risk of shortfall of collateral value due to inaccurate pricing of the securities lent or change of value of securities lent. This may cause significant losses to the Fund. The borrower may fail to return the securities in a timely manner or at all. The Fund may suffer from a loss or delay when recovering the securities lent out. This may restrict the Fund's ability in meeting delivery or payment obligations from realisation requests.

### INVESTMENT OBJECTIVES

The Fund is a passive ETF and seeks to provide investment results that, before deduction of fees and expenses, closely correspond to the performance of the MSCI China Index (the "Index").
