## Global X US Treasury 3-5 Year ETF

Category: Income  
As of 28/02/2025

### IMPORTANT INFORMATION

Investors should not base investment decisions on this website alone. Please refer to the Prospectus for details including product features and the risk factors. Investment involves risks. Past performance is not indicative of future performance. There is no guarantee of the repayment of the principal. Investors should note:

- The investment objective of Global X US Treasury 3-5 Year ETF (the "Fund") is to provide investment results that, before deduction of fees and expenses, closely correspond to the performance of the Mirae Asset US Treasury 3-5 Year Index (the "Underlying Index").
- The Fund is exposed to the Credit/Default risk of issuers of the debt securities that the Fund may invest in; the Credit Rating risk that the credit ratings assigned by rating agencies are subject to limitations and do not guarantee the creditworthiness of the security and/or issuer at all times; the Downgrading risk that the Manager may or may not be able to dispose of the debt securities that are being downgraded; the Interest rate risk that the prices of debt securities rise when interest rates fall, whilst their prices fall when interest rates rise; the Policy risk that the changes in macro-economic policies in the US may have an influence over the US' capital markets and affect the pricing of the bonds in the Fund's portfolio, which may in turn adversely affect the return of the Fund; the Sovereign debt risk that the Fund's investment in US Treasury securities may be exposed to political, social and economic risks that the Fund may suffer significant losses when there is a default of the US Treasury; the valuation risk that the valuation of the Fund's instruments may involve uncertainties and judgmental determinations. If such valuation turns out to be incorrect, this may affect the Net Asset Value calculation of the Fund.
- The Underlying Index is a new index. The Underlying Index has minimal operating history by which investors can evaluate its previous performance. There can be no assurance as to the performance of the Underlying Index. The Fund may be riskier than other exchange traded funds tracking more established indices with longer operating history.
- The Underlying Index is subject to concentration risk as a result of tracking the performance of a single geographical region, namely the US, and is concentrated in debt securities of a single issuer, namely the US Treasury. The Fund's value may be more volatile than that of a fund having a more diverse portfolio and may be more susceptible to adverse economic, political, policy, foreign exchange, liquidity, tax, legal or regulatory event affecting the US market.
- The base currency of the Fund is USD but the trading currency of the Fund is in HKD. The Net Asset Value of the Fund and its performance may be affected unfavourably by fluctuations in the exchange rates between these currencies and the base currency and by changes in exchange rate controls.
- The borrower may fail to return the securities lent out in a timely manner or at all. The Fund may as a result suffer from a loss or delay when recovering the securities lent out. This may restrict the Fund's ability in meeting delivery or payment obligations from realisation requests. As part of the securities lending transactions, there is a risk of shortfall of collateral value due to inaccurate pricing of the collateral, adverse market movements in the collateral value or change of value of securities lent. This may cause significant losses to the Fund.
- The trading price of the Units on the SEHK is driven by market factors such as the demand and supply of the Units. Therefore, the Units may trade at a substantial premium or discount to the Fund's Net Asset Value.
- Payments of distributions out of capital and/or effectively out of capital amounts to a return or withdrawal of part of an investor's original investment or from any capital gains attributable to that original investment. Any such distributions involving payment of distributions out of capital or effectively out of capital of the Fund may result in an immediate reduction in the Net Asset Value per Unit of the Fund and will reduce the capital available for future investment.

### INVESTMENT OBJECTIVES

The Fund seeks to provide investment results that, before deduction of fees and expenses, closely correspond to the performance of the Mirae Asset US Treasury 3-5 Year Index (the "Underlying Index").

Certain information contained in this document is compiled from third party sources. Whilst Mirae Asset Global Investments (Hong Kong) Limited ("Mirae Asset HK"), the Manager of the Fund, has, to the best of its endeavor, ensured that such information is accurate, complete and up-to-date, and has taken care in accurately reproducing the information, Mirae Asset HK accepts no liability for any loss or damage of any kind resulting out of the unauthorized use of this document. The information contained in this document is for information purposes only and does not constitute any recommendation, offer or solicitation to buy, sell or subscribe to any securities or financial instruments in any jurisdiction. Investment involves risk. It cannot be guaranteed that the performance of the Fund will generate a return and there may be circumstances where no return is generated or the amount invested is lost. Past performance is not indicative of future performance. Before making any investment decision to invest in the Fund, investors should read the Fund's Prospectus for details and the risk factors. Investors should ensure they fully understand the risks associated with the Fund and should also consider their own investment objective and risk tolerance level. Investors are advised to seek independent professional advice before making any investments. The Fund's Prospectus is available on the website [www.globalxetfs.com](http://www.globalxetfs.com).

References to particular sectors, securities or companies are for general information and illustrative purposes only and are not recommendations to buy or sell a security, or an indication of the issuer's holdings at any one time. Investors should note that the Fund differs from a typical retail fund as Units may only be created and realized by participating dealers in large unit sizes. This document is issued by Mirae Asset HK and has not been reviewed by the Securities and Futures Commission of Hong Kong. Please read the disclaimer in relation to the Index in the Fund's Prospectus.
