* As the Unlisted Classes of Units (as defined below) of the Sub-Fund (as defined below) are newly set up, this figure is an estimate only and represents the sum of the estimated ongoing charges over a 12-month period, expressed as a percentage of the estimated average Net Asset Value (as defined below) of the relevant class of the Sub-Fund over the same period. It may be different upon actual operation of the Sub-Fund and may vary from year to year and is capped at 0.65% for Class E Units, 0.50% for Class F Units, 0.85% for Class R1 Units and 1.00% for Class R2 Units of the average net asset value of the respective classes. Any ongoing expenses of the Sub-Fund will be borne by the Manager and will not be charged to respective classes if such expense would result in the ongoing charges figure exceeding 0.65% for Class E Units, 0.50% for Class F Units, 0.85% for Class R1 Units and 1.00% for Class R2 Units. Please refer to "Ongoing fees payable by the Sub-Fund" below and the Prospectus for details.

[^] This is an estimated annual tracking difference. Investors should refer to the Sub-Fund's website for more up-to-date information on the actual tracking difference.

[#] This website has not been reviewed or approved by the Securities and Futures Commission ("SFC").

What is this product?

- Global X Hang Seng TECH ETF ("**Sub-Fund**") is an investment fund of the Global X ETF Series (the "**Trust**"), which is an umbrella unit trust established under Hong Kong law. The Sub-Fund is a passively managed index tracking exchange traded fund falling under Chapter 8.6 of the Code on Unit Trusts and Mutual Funds ("**Code**").
- **The Sub-Fund offers both listed class of Units ("Listed Class of Units") and unlisted class of Units ("Unlisted Class of Units"). This statement contains information about the offering of the Unlisted Class of Units, and unless otherwise specified references to "Units" in this statement shall refer to the "Unlisted Class of Units". Investors should refer to a separate statement for the offering of Listed Class of Units.**

Objective and investment strategy

Objective

The Sub-Fund seeks to provide investment results that, before deduction of fees and expenses, closely correspond to the performance of the Hang Seng TECH Index ("**Underlying Index**").

Strategy

The Manager intends to primarily adopt a full replication strategy through investing all, or substantially all, of the assets of the Sub-Fund directly in securities constituting the Underlying Index in substantially the same weightings as these securities have in the Underlying Index to achieve the investment objective of the Sub-Fund ("**Replication Strategy**").

Where the adoption of the Replication Strategy is not efficient or practicable or is otherwise at the Manager's absolute discretion, the Manager may pursue a representative sampling strategy and hold a representative sample of the constituent securities of the Underlying Index selected by the Manager using quantitative analytical models to derive a portfolio sample ("**Representative Sampling Strategy**"). In pursuing the Representative Sampling Strategy, the Manager may cause the Sub-Fund to deviate from the Underlying Index weighting on the condition that the maximum deviation from the Underlying Index weighting of any constituent will not exceed 3 percentage points above or below such weighting.

Investors should note that the Manager may switch between the Replication Strategy and the Representation Sampling Strategy without prior notice to investors, in its absolute discretion.

Global X ETF Series - Global X Hang Seng TECH ETF (Unlisted Class)

The Manager has no intention to engage in sale and repurchase transactions, reverse repurchase transactions or other similar over-the-counter transactions in respect of the Sub-Fund. Should there be a change in such intention, the Manager will seek prior approval of the SFC if required and not less than one month's prior notice will be given to unitholders.

The Manager may, on behalf of the Sub-Fund, enter into securities lending transactions with a maximum level of up to 50% and expected level of approximately 20% of its net asset value ("Net Asset Value") and is able to recall the securities lent out at any time.

As part of the securities lending transactions, the Sub-Fund must receive cash and/or non-cash collateral of at least 100% of the value of the securities lent (interests, dividends and other eventual rights included) valued on a daily basis. The collateral will be subject to safekeeping by the Trustee or an agent appointed by the Trustee. Non-cash collateral received may not be sold, re-invested or pledged. Any re-investment of cash collateral received shall be subject to the requirements as set out in the Code. To the extent the Sub-Fund undertakes securities lending transactions, all revenues (net of direct and indirect expenses as reasonable and normal compensation for the services rendered by the Manager, a securities lending agent and/or other service providers in the context of such transactions to the extent permitted by applicable legal and regulatory requirements) shall be returned to the Sub-Fund.

The Manager may invest no more than 10% of the Sub-Fund's Net Asset Value in futures for investment and hedging purposes, where the Manager believes such investments will help the Sub-Fund achieve its investment objective and are beneficial to the Sub-Fund. The futures in which the Sub-Fund may invest will be index futures which exhibit high correlation with the Underlying Index in order to manage the Sub-Fund's exposure to the Underlying Index constituents.

Underlying Index

The Underlying Index is a free float adjusted market capitalisation weighted index and aims to represent the 30 largest technology companies listed in Hong Kong which have high business exposure to selected technology themes, including internet (including mobile), fintech, cloud, e-commerce, digital, or autonomous activities. The technology companies selected have to be Greater China Companies (as defined below) that are listed on the main board of The Stock Exchange of Hong Kong Limited ("SEHK").

"**Greater China Companies**" are companies not classified as "Foreign Companies". "**Foreign Companies**" are companies which are incorporated outside Greater China (i.e. Hong Kong, Mainland China, Macau and Taiwan) and have the majority of their business presence outside Greater China.

The Underlying Index is compiled and maintained by Hang Seng Indexes Company Limited ("**Index Provider**"). It was launched on 27 July 2020 and has a base date of 3,000 on 31 December 2014. The Manager (and each of its connected persons) are independent of the Index Provider.

The Underlying Index is a net total return index. A net total return index reflects the reinvestment of dividends or coupon payments, after deduction of any withholding tax (including any surcharges for special levies, if applicable). The Underlying Index is denominated and quoted in HKD.

As at 31 March 2025 the Underlying Index comprised 30 constituent stocks with total market capitalisation of approximately HKD 13.95 trillion.

The constituents of the Underlying Index together with their respective weightings and additional information of the Underlying Index can be found on <https://www.hsi.com.hk/eng/indexes/all-indexes/hstech> (the website has not been reviewed or approved by the SFC).

The Underlying Index is distributed under the following identifiers:

Name	Bloomberg
Hang Seng TECH Index	HSTECHN

Use of derivatives / Investment in derivatives

The Sub-Fund's net derivative exposure may be up to 50% of its Net Asset Value.

What are the key risks?

**Global X ETF Series -
Global X Hang Seng TECH ETF (Unlisted Class)**

Investment involves risks. You may suffer substantial / total loss by investing in this Sub-Fund. Please refer to the Prospectus for details including the risk factors.

1. General investment risk

- The Sub-Fund's investment portfolio may fall in value due to any of the key risk factors below and therefore your investment in the Sub-Fund may suffer losses. There is no guarantee of the repayment of principal. There is no assurance that the Sub-Fund will achieve its investment objective.

2. Equity market risk

- The Sub-Fund's investment in equity securities is subject to general market risks, whose value may fluctuate due to various factors, such as changes in investment sentiment, political and economic conditions and issuer-specific factors.

3. Risks related to companies with technology theme

- The Sub-Fund's investments are concentrated in companies with a technology theme. Many of the companies with a high business exposure to a technology theme have a relatively short operating history. Technology companies are often characterised by relatively higher volatility in price performance when compared to other economic sectors. Companies in the technology sector also face intense competition, and there may also be substantial government intervention, which may have an adverse effect on profit margins. Rapid changes could render obsolete the products and services offered by these companies. These companies are also subject to the risks of loss or impairment of intellectual property rights or licences, cyber security risks resulting in undesirable legal, financial, operational and reputational consequences.
- The Sub-Fund may be exposed to risks associated with different technology sectors and themes (including industries, consumer discretionary, healthcare, financials, information technology, internet (including mobile), fintech, cloud, e-commerce, digital, or autonomous activities). A downturn in the business for companies in these sectors or themes may have adverse effects on the Sub-Fund.

4. Concentration risk

- The Sub-Fund's investments are concentrated in securities listed on the SEHK of companies that are active in technology sector may result in greater volatility in the value of the Sub-Fund than more diverse portfolios which comprise broad-based global investments.
- The value of the Sub-Fund may be more susceptible to adverse economic, political, policy, foreign exchange, liquidity, tax, legal or regulatory event affecting the technology sector.
- The Underlying Index is subject to concentration risk as a result of tracking the performance of securities incorporated in, or with majority of revenue derived from, or with a principal place of business in, the Greater China region. The Sub-Fund's Net Asset Value is therefore likely to be more volatile than a broad-based fund.

5. Differences in dealing arrangements between Listed and Unlisted Classes of Units risk

- Investors of Listed and Unlisted Classes of Units are subject to different pricing and dealing arrangements. The Net Asset Value per Unit of each of the Listed and Unlisted Classes of Units may be different due to different fees and cost applicable to each class. The trading hours of the SEHK applicable to the Listed Class of Units in the secondary market and the dealing deadlines in respect of the Unlisted Classes of Units are also different.
- Units of the Listed Class of Units are traded on the stock exchange in the secondary market on an intraday basis at the prevailing market price (which may diverge from the corresponding Net Asset Value), while Units of the Unlisted Classes of Units are sold through intermediaries based on the dealing day-end Net Asset Value and are dealt at a single valuation point with no access to intraday liquidity in an open market. Depending on market conditions, investors of the Unlisted Classes of Units may be at an advantage or disadvantage compared to investors of the Listed Class of Units.
- In a stressed market scenario, investors of the Unlisted Classes of Units could realise their Units at Net Asset Value while investors of the Listed Class of Units in the secondary market could only realise at the prevailing market price (which may diverge from the corresponding Net Asset Value) and may have to exit the Sub-Fund at a significant discount. On the other hand, investors of the Listed Class of Units could sell their Units on the secondary market during the day thereby crystallising their positions while investors of the Unlisted Classes of Units could not do so in a timely manner until the end of the day.

6. Differences in cost mechanisms between Listed and Unlisted Classes of Units risk

Global X ETF Series - Global X Hang Seng TECH ETF (Unlisted Class)

- Investors should note that different cost mechanisms apply to Listed Class of Units and Unlisted Class of Units. For Listed Class of Units, the transaction fee and the duties and charges in respect of creation and realisation applications are paid by the participating dealer applying for or realising such units and/or the Manager. Investors of Listed Class of Units in the secondary market will not bear such transaction fees and duties and charges (but for the avoidance of doubt, may bear other fees, such as SEHK trading fees).
 - On the other hand, the subscription and realisation of Unlisted Class of Units may be subject to a subscription fee and realisation fee respectively, which will be payable to the Manager by the investor subscribing or realising. In addition, in determining the subscription price and realisation price, the Manager is entitled to add/deduct an amount which it considers represents an appropriate allowance for the fiscal and purchase/sale charges. Any or all of these factors may lead to a difference in the Net Asset Value of the Listed Class of Units and Unlisted Class of Units.
- 7. RMB class risk**
- RMB is currently not freely convertible and is subject to exchange controls and restrictions.
 - Non-RMB based investors are exposed to foreign exchange risk and there is no guarantee that the value of RMB against the investors' base currencies (for example HKD) will not depreciate. Any depreciation of RMB could adversely affect the value of investor's investment in the RMB Unlisted Class of Units.
 - Although offshore RMB (CNH) and onshore RMB (CNY) are the same currency, they trade at different rates. Any divergence between CNH and CNY may adversely impact investors.
 - Under exceptional circumstances, payment of redemptions and/or distribution payment in RMB may be delayed due to the exchange controls and restrictions applicable to RMB.
- 8. Securities lending transactions risk**
- The borrower may fail to return the securities in a timely manner or at all. The Sub-Fund may as a result suffer from a loss or delay when recovering the securities lent out. This may restrict the Sub-Fund's ability in meeting delivery or payment obligations from realisation requests.
 - As part of the securities lending transactions, the Sub-Fund must receive cash collateral of at least 100% of the valuation of the securities lent valued on a daily basis. However, there is a risk of shortfall of collateral value due to inaccurate pricing of the securities lent or change of value of securities lent. This may cause significant losses to the Sub-Fund.
 - By undertaking securities lending transactions, the Sub-Fund is exposed to operational risks such as delay or failure of settlement. Such delays and failure may restrict the Sub-Fund's ability in meeting delivery or payment obligations from realisation requests.
- 9. Passive investment risk**
- The Sub-Fund is passively managed and the Manager will not have the discretion to adapt to market changes due to the inherent investment nature of the Sub-Fund. Falls in the Underlying Index are expected to result in corresponding falls in the value of the Sub-Fund.
- 10. Tracking error risk**
- The Sub-Fund may be subject to tracking error risk, which is the risk that its performance may not track that of the Underlying Index exactly. This tracking error may result from the investment strategy used, and fees and expenses. The Manager will monitor and seek to manage such risk in minimising tracking error. There can be no assurance of exact or identical replication at any time of the performance of the Underlying Index.
- 11. Termination risk**
- The Sub-Fund may be terminated early under certain circumstances, for example, where the Underlying Index is no longer available for benchmarking or if the size of the Sub-Fund falls below HKD50 million (or its equivalent in the Sub-Fund's base currency). Investors may not be able to recover their investments and suffer a loss when the Sub-Fund is terminated.
- 12. Distributions paid out of capital or effectively out of capital risk**
- Payments of distributions out of capital and/or effectively out of capital amounts to a return or withdrawal of part of an investor's original investment or from any capital gains attributable to that original investment. Any such distributions involving payment of dividends out of capital or effectively out of capital of the Sub-Fund may result in an immediate reduction in the Net Asset Value per Unit of the Sub-Fund and will reduce the capital available for the Sub-Fund's future investment.

Global X ETF Series - Global X Hang Seng TECH ETF (Unlisted Class)

How has the Sub-Fund performed?

Since the Sub-Fund is newly set up, there is insufficient data available to provide a useful indication of past performance to investors.

Is there any guarantee?

The Sub-Fund does not have any guarantees. You may not get back the amount of money you invest.

What are the fees and charges?

Charges which may be payable by you

Fee	What you pay
Subscription fee	Up to 3% of the subscription amount
Realisation fee	Nil
Switching fee	Nil

Ongoing fees payable by the Sub-Fund

The following expenses will be paid out of the Sub-Fund. They affect you because they reduce the Net Asset Value of the Sub-Fund which may affect the trading price.

	Annual rate (as a % of the Sub-Fund's Net Asset Value)			
	Class E (HKD) Units Class E (RMB) Units Class E (USD) Units	Class F (HKD) Units Class F (RMB) Units Class F (USD) Units	Class R1 (HKD) Units Class R1 (RMB) Units Class R1 (USD) Units	Class R2 (HKD) Units Class R2 (RMB) Units Class R2 (USD) Units
Management fee	0.35%	0.20%	0.55%	0.70%
Trustee fee	0.035% per annum for first USD300 million of Net Asset Value; 0.025% per annum for the remaining balance of Net Asset Value, subject to a monthly minimum of USD2,500.			
Performance fee	Not applicable			
Administration fee	Not applicable			

Please note that some fees may be increased up to a permitted maximum amount by providing one month's prior notice to unitholders. Please refer to the "Fees and Expenses" section of the Prospectus for details.

Other fees

You may have to pay other fees when dealing in the Units of the Sub-Fund. Please refer to the Prospectus for details.

Additional information

You generally buy and realise Units at the Sub-Fund's next-determined Net Asset Value after the Trustee / Registrar receives your request, directly or via a distributor, in good order at or before 3:00 p.m. (Hong Kong time), being the Sub-Fund's dealing cut-off time on each dealing day of the Sub-Fund. Before placing your subscription or realisation orders, please check with your distributor for the distributor's internal dealing cut-off time (which may be earlier than the Sub-Fund's dealing cut-off time).

Global X ETF Series - Global X Hang Seng TECH ETF (Unlisted Class)

You can find the following information of the Sub-Fund in English and Chinese (unless otherwise specified) on the following website <https://www.globalxetfs.com.hk/> (which has not been reviewed or approved by the SFC):

- the Prospectus and this Product Key Facts Statement (as revised from time to time);
- the latest annual audited financial reports and interim unaudited financial reports (in English only);
- any public announcements made by the Manager in respect of the Sub-Fund, including information with regard to the Sub-Fund and the Underlying Index, the notices of the suspension of the issue and realisation of Units, the suspension of the calculation of the Net Asset Value and changes in fees;
- any notices relating to material changes to the Sub-Fund which may have impact on its investors such as material alterations or additions to the Prospectus (including this Product Key Facts Statement) or the constitutive documents of the Trust and/or the Sub-Fund;
- the full portfolio information of the Sub-Fund (updated on a daily basis);
- the last Net Asset Value of the Sub-Fund in HKD, and the last Net Asset Value per Unit in HKD, RMB and USD of the Sub-Fund;
- the past performance information of both the Listed Class of Units and Unlisted Classes of Units of the Sub-Fund;
- the ongoing charges of both the Listed Class of Units and Unlisted Classes of Units of the Sub-Fund;
- the annual tracking difference and tracking error of the Sub-Fund;
- the composition of distributions (i.e. the relative amounts paid out of net distributable income and capital, if any, for a 12-month rolling period); and
- the proxy voting policy of the Manager.

The Net Asset Value of the Sub-Fund is calculated and the subscription and realisation prices of Unlisted Classes of Units are published each business day on the website <https://www.globalxetfs.com.hk/> (which has not been reviewed or approved by the SFC).

Please refer to the Prospectus for details.
