

MIRAE ASSET CHINA GROWTH EQUITY FUND

Share Class A in EUR

IMPORTANT INFORMATION

Investors should not base on this document alone to make investment decision. Please refer to the Hong Kong offering documents for details including the product features and the risk factors. Investment involves risks. There is no guarantee of the repayment of principal. Before you decide to invest, you should make sure the intermediary has explained to you that the Mirae Asset China Growth Equity Fund (the "Fund") is suitable to you. Investor should note:

- The Fund invests primarily in equities and equity related securities of China companies which have strong prospects for future growth from the view of the Principal Investment Manager.
- Investment in China carries higher risks than investment in a developed market and can be significantly affected by general economic and political conditions and changes in government policy in China. The investment may also be sensitive to regulatory developments, tax law and practice in China and fluctuations in the rate of exchange of Renminbi.
- The Fund invests mainly in China, its investment is not as diversified as regional funds or global funds, the Fund is more volatile than regional funds or global funds and its portfolio value can be exposed to country specific risks.
- The stock of small-capitalisation / mid-capitalisation companies may have lower liquidity and their prices are more volatile to adverse economic developments than those of larger capitalisation companies in general.
- The investment returns are denominated in Euro. US/HK dollar-based investors are therefore exposed to fluctuations in the US/HK dollar/Euro exchange rate.
- The expected maximum level of leverage arising from the use of financial derivative instruments calculated using the commitment approach is 100% of the Fund's NAV.
- The Fund's performance may differ significantly from the performance of funds with similar investment universe but without applying ESG criteria. The Fund's portfolio may also be concentrated in ESG-related securities and its value may become more volatile than that of a fund investing in a more diversified portfolio.
- There is a lack of standard taxonomy in ESG evaluation methodologies and the way in which different funds that use ESG criteria will apply such criteria may vary. There can be no guarantee that the Principle Investment Manager will correctly assess the ESG characteristics of the Fund's investment.
- Applying ESG criteria in the investment process may result in the exclusion of securities in which the Fund might otherwise invest. Implementation of the Fund's exclusion policy may result in the Fund forgoing opportunities to buy certain securities when it might otherwise be advantageous to do so.

INVESTMENT OBJECTIVE

The primary objective of the Mirae Asset China Growth Equity Fund ("the Fund") is to achieve long term growth in the share price through capital appreciation, measured in US Dollars, of the underlying equity portfolio which promotes environmental, social and governance (ESG) criteria. The Principal Investment Manager will seek to achieve the objective of the Fund by investing mainly in equities and equity related securities of China companies, including but not limited to companies which are engaged in consumer, health care and e-commerce related industries, which have strong prospects for growth. The Fund promotes environmental, social and governance characteristics and is thus classified as a financial product falling within the scope of Article 8 of the SFDR.

As of 28 February 2026
