\* This figure is based on actual expenses incurred for the year ended 31 March 2022. It represents the sum of the ongoing expenses chargeable to the relevant share class expressed as a percentage of the average net asset value of the relevant share class. This figure may vary from year to year. It does not include any extraordinary expenses.

### What is this product?

Mirae Asset Sustainable India Sector Leader Equity Fund (the “Sub-Fund”) is a sub-fund of Mirae Asset Global Discovery Fund which is a mutual fund domiciled in Luxembourg and its home regulator is the Commission de Surveillance du Secteur Financier (CSSF).

### Objectives and Investment Strategy

#### Objectives

The primary objective of the Sub-Fund is to achieve long term growth in the share price through capital appreciation, measured in US Dollars, of the underlying equity portfolio. The Sub-Fund promotes environmental, social and governance (ESG) criteria.

#### Strategy

The Investment Manager will seek to achieve the objective of the Sub-Fund by investing mainly in equities and equity related securities (such as but not limited to shares and depository receipts) of sector leading companies domiciled in or exercising a large portion of their business in India.

Securities of “sector leading companies” refer to securities that are highly ranked (usually means first or second), or expects to be highly ranked in the future, in terms of market share, earnings or market capitalization within their respective country, region, industry, products produced or services offered.

The Sub-Fund will invest directly in securities of companies on the stock exchange in India through a sub Foreign Institutional Investor (FII) license with the Indian regulator.

The Principal Investment Manager will apply the ESG Approach (as described below) to 100% of the portfolio of the Sub-Fund on an ongoing basis such that 100% of the assets in the Sub-Fund are allocated to investments aligned with the ESG characteristics promoted by the Sub-Fund.

The Sub-Fund is actively managed and references the MSCI India Index (the “Benchmark”) by seeking to outperform it. There are no restrictions on the extent to which the Sub-Fund’s portfolio may deviate from the one of the Benchmark. Furthermore, by adopting the ESG Approach, the Sub-Fund endeavors to achieve better ESG performance than the Benchmark.

As permitted by and subject to the provisions of the Prospectus, the Sub-Fund may use financial derivative instruments (such as index futures and foreign exchange swaps), and employ techniques and instruments, for efficient portfolio management and hedging purposes only.

### **ESG Approach**

#### *(i) ESG Scorecard*

The Principal Investment Manager has developed its own proprietary ESG Scorecard (the “Mirae Asset ESG Scorecard”) to ensure ESG scores are tailored to the companies in the Sub-Fund’s portfolio based on the sectors and markets they operate in. Qualitative and quantitative parameters are used for scoring based on a 1 to 5 rating (1-rating indicating poor performance and 5-rating indicating excellent performance). This in-house ESG scoring system assesses a company’s ESG performance using company data (i.e. data provided by the company) as well as alternate data (i.e. data provided by other third party data sources). Each company will be assigned a score under each of the environmental, social and governance pillars and an overall weighted rating in the Mirae Asset ESG Scorecard.

Please refer to the Information for Hong Kong Investors for more details on the Mirae Asset ESG Scorecard.

#### *(ii) Best-in-class methodology*

The Principal Investment Manager applies a best-in-class methodology following which the Sub-Fund will invest at least 70% of its net assets in companies that are (a) within the top 50% threshold of environmental and/or social scores and (b) within the top 50% threshold of governance scores based on the Mirae Asset ESG Scorecard.

#### *(iii) Exclusions*

The Principal Investment Manager shall refrain from investing in companies that have significant (more than 15%) revenue in weapons, tobacco, adult entertainment, cannabis, and fossil fuels which includes thermal coal mining, unconventional oil & gas and power generation (e.g. thermal coal, nuclear, etc.).

### **Use of derivatives / investment in derivatives**

The Sub-Fund’s net derivative exposure may be up to 50% of the Sub-Fund’s net asset value.

### **What are the key risks?**

**Investment involves risks. Please refer to the Hong Kong offering document for details including the risk factors.**

#### **1. Risk of investing in India**

- Investment in Indian securities can be restricted for foreign investors and foreign entities. The Sub-Fund will invest directly in securities of companies on the stock exchange in India through a sub FII license with the Indian regulator. Investments in Indian market carry other risks, as local regulations on foreign investment and limitation on capital may change.
- Investment in India also carries a higher risk than investment in a developed market (e.g. investment and repatriation restrictions, currency fluctuations, government involvement in the private sector, investor disclosure requirements, possibility of limited legal recourse and higher liquidity risk).

#### **2. Single country risk**

- The Sub-Fund invests mainly in India, its investment is not as diversified as regional funds or global funds. The Sub-Fund tends to be more volatile than regional funds or global funds and its portfolio value can be exposed to country specific risks.

#### **3. Currency / Foreign exchange risk**

- Underlying investments of the Sub-Fund may be denominated in currencies other than the base currency of the Sub-Fund. Also, a class of shares may be designated in a currency other than the base currency of the Sub-Fund. The net asset value of the Sub-Fund may be affected unfavorably by fluctuations in the exchange rates between these currencies and the base currency and by changes in exchange rate controls.

#### **4. Risk of investing in equities and equity related securities**

- The Sub-Fund invests mainly in equities and equity related securities and the value of the Sub-Fund may be affected by

changes in the stock markets, changes in the value of individual portfolio securities, as well as by economic, political, and issuer specific changes. At times, stock markets and individual securities can be volatile and prices can change substantially in short periods of time.

**5. ESG investment risks**

- The Sub-Fund's performance may differ significantly from the performance of funds with similar investment universe but without applying ESG criteria. The Sub-Fund's portfolio may also be concentrated in ESG-related securities and its value may become more volatile than that of a fund investing in a more diversified portfolio.
- There is a lack of standardized taxonomy in ESG evaluation methodologies and the way in which different funds that use ESG criteria will apply such criteria may vary. ESG assessment on investments may require subjective judgements, which may include consideration of third party data that is subjective, incomplete or inaccurate. This may affect the Principal Investment Manager's ability to measure and assess the ESG characteristics of a potential investment and may cause the Sub-Fund to have exposure to an investment which do not meet the ESG criteria. There can be no guarantee that the Principal Investment Manager will correctly assess the ESG characteristics of the Sub-Fund's investments.
- Applying ESG criteria in the investment process may result in the exclusion of securities in which the Sub-Fund might otherwise invest. Implementation of the Sub-Fund's exclusion policy may result in the Sub-Fund forgoing opportunities to buy certain securities when it might otherwise be advantageous to do so, and/or selling securities when it might be disadvantageous to do so.

**6. Risk of financial derivative instruments**

- The use of financial derivatives instruments may expose the Sub-Fund to higher risks including market volatility risk, credit risk, counterparty risk and liquidity risk. In adverse situation, the use of financial derivative instruments in effective portfolio management and hedging purposes may become ineffective and the Sub-Fund may suffer significant losses.

**7. Risk of Foreign Account Tax Compliance Act ("FATCA")**

- The Sub-Fund will endeavour to satisfy the requirements imposed by FATCA to avoid the imposition of FATCA withholding tax. In the event that the Sub-Fund is not able to comply with the requirements imposed by FATCA and the Sub-Fund suffers US withholding tax on its US investments (if any) as a result of non-compliance, the Sub-Fund may be adversely affected and may suffer significant loss as a result.

**8. Investment risk**

- The Sub-Fund is an investment fund. The Sub-Fund's investment portfolio may fall in value and therefore your investment in the Sub-Fund may suffer losses.

**How has the Sub-Fund performed?**

Note

- Class A – Capitalization: USD
- MSCI India Index

Note: The performance in these years were achieved under circumstances that no longer apply. The investment policy was

changed on 28 January 2022.

- Share class<sup>^</sup>: Class A - USD
  - Past performance information is not indicative of future performance. Investors may not get back the full amount invested.
  - The computation basis of the performance is based on the calendar year end, NAV-to-NAV, with dividends (if any) reinvested.
  - These figures show by how much the share class increased or decreased in value during the calendar year shown. Performance data has been calculated in USD including ongoing charges and excluding subscription fee and redemption fee you might have to pay.
  - Where no past performance is shown there was insufficient data available in that year to provide performance.
  - The benchmark of the Sub-Fund is MSCI India Index.
  - The Sub-Fund launch date: 2 March 2011
  - Share class launch date: 2 March 2011
- <sup>^</sup> The Principal Investment Manager views Class A – USD as the most appropriate representative share class as it is the share class available to all investors in Hong Kong and is denominated in the Sub-Fund’s base currency.

### Is there any guarantee?

The Sub-Fund does not have any guarantees. You may not get back the full amount of money you invest.
